EDUCATION

- **Karunya Institute of Technology and Sciences** Coimbatore, India
Bachelor of Technology in Computer Science; CGPA: 7.62 Jul. 2014 – May. 2018
- **Narayana Jr. College** Hyderabad, India
Pre-University Course(Board of Intermediate, A.P); 85.4% Jun. 2012 – Mar 2014
- **Howard Public School** Hyderabad, India
Secondary School Education(CBSE); CGPA: 7.2 Apr. 2012

EXPERIENCE

- **Infosys** Hyderabad, India
Systems Engineer (Mulesoft Certified Developer) Sep 2018 - Present
 - **Adopt Anypoint Platform for legacy modernization:**
 - Mulesoft Developer for a large provider of personal installment loans in the United States.
 - Migration of existing JAX-RS(Java API for RESTful Web Services) to Mulesoft's Anypoint Platform implementing API - Led Approach and Connectivity to build API's.
 - Involved in software development lifecycle (SDLC) process using Agile methodology, inclusive of iterative application development, monthly sprints, stand up meetings, etc.
 - Developed RAML based REST APIs using MuleSoft Anypoint API Platform.
 - Developed RESTful/SOAP web services in Mule ESB based on SOA architecture.
 - Used connectors to connect legacy systems quickly and without disruption. (Ex: AS/400 database)
 - Hands-on experience in using DataWeave(2.0) for implementing complex data transformations.
 - Usage of JSON for framing request and response parameters.
 - Hands-on experience with transformers, exception handling and testing.
 - Composed API specification using Design Center to publish the RAML to Anypoint Exchange.
 - Responsible for preparation of design documents, troubleshoots and testing API's alongside their development.
 - Used LDAP connectors to establish connection to LDAP for implementing employee/user login, password reset and account unlock.
 - Part of the team responsible for Implementation of custom error handler that could be used as a shared resource (dependency) across all the API's to maintain a standard error handler.
 - Used CI / CD tools like Bamboo during the development and deployment.
 - Written several MUnit test cases with a minimum of 80 % code coverage for all code delivered.

PROJECTS

- **EyeVee (Web App):**
Built an online web based portal for Booking Industrial Visits. Using HTML, CSS, Bootstrap, SQL DB, PHP, JavaScript and Integrated an API call for OneTimeKey Generation for booking which is sent on the phone via SMS, Several PHP classes like FPDF, PHPMailer to generate PDF and Mail the following PDF as an attachment.
- **Banking Application:**
This project was built based on Tibco Business Works. The technologies used for successful build of the project were BPMI - TIBCO, SOAP over HTTP(S), SSL, WebServices, XML Encryption, XSL / XSLT and MySQL.
- **Portfolio Website:**
Built a personal portfolio website Using HTML, CSS and JavaScript. <https://theyashjaiswal.github.io/>

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript, PHP
- **Front-End:** HTML, CSS, XML, Bootstrap, Angular JS, jQuery
- **Back-End:** MySQL, SQL Server, Oracle
- **Middleware:** TIBCO BW (5 & 6), Mule (3.9 & 4), IBM Integration Bus (IIB), IBM Message (MQ)
- **Web Services:** WSDL, SOAP, REST, JAX-RS
- **Tools:** Bitbucket, Bamboo, Confluence, Jira, Sourcetree, GitHub

CERTIFICATION

- **Mulesoft Certified Developer - Integration and API Associate 3.9**
